

JX0

COMPACT VERTICAL ORDER PICKER

200 kg 3615 mm 24 V Lead Acid/Li-ion

The JX0 series is purpose-built for e-commerce, retail, and general warehouse environments where frequent low- to mid-level order picking is required. Its compact 750 mm width and 1260 mm turning radius allow easy operation in narrow aisles and crowded storage areas. The model's automatic travel speed adjustment based on lifting height ensures both efficiency and safety. With options for lead-acid or Li-ion batteries, the JX0 adapts to various working schedules and energy requirements.

SPECIFICATION	REF	UNIT	VALUE
Battery type			Lead Acid/Li-ion
Battery nominal capacity		Ah	120 135
Battery voltage		V	24
Load capacity	Q	kg	200
Load centre distance	c	mm	-
Service weight		kg	800
Retracted mast height	h ₁	mm	1375
Lift height	h ₃	mm	3615
Height, mast extended	h ₄	mm	4090
Overall length		mm	1440
Overall width	b ₁ /b ₂	mm	750
Length to face of forks	I ₂	mm	-
Fork dimensions	s/e/l	mm	-
Turning radius		Wa	1260
Operator type			Standing
Load distance, centre of drive axle to fork		mm	-

Features

Safe and efficient order picking

The JX0 provides a stable and efficient alternative to ladders and traditional pickers. With a picking height of 4.5 m, it allows operators to reach high racks safely and comfortably, significantly improving picking productivity in tight storage environments.

Intuitive driving and control system

Featuring a mini steering wheel on the left and speed/direction control on the right, the JX0 ensures smooth and precise handling. The integrated LCD display provides clear information about battery level, driving direction, and operating hours, enhancing user awareness and control.

Compact and ergonomic design

With a width of 750 mm and turning radius of only 1260 mm, the JX0 is perfect for narrow aisles. Its spacious operator compartment, fingertip control buttons, and 180° steering capability allow easy, fatigue-free operation throughout extended shifts.

Li-ion battery for maximum uptime

Equipped with a 24V/135Ah Li-ion battery and a single-phase 24V-30A integrated charger, the JX0 supports fast opportunity charging with minimal downtime. The maintenance-free Li-ion system ensures consistent performance, reduced operating costs, and environmental sustainability.

VDI Chart

	SPECIFICATION	REF	UNIT	VALUE
1.4	Operator type			Standing
1.5	Load capacity	Q	kg	200
1.6	Load centre distance	c	mm	-
