# A Series Double-column Pallet Stackers Mini Range II

The A series 1.2t/1.5t mini stackers is a new generation of products designed by Hangcha for warehousing and logistics applications. Using the latest permanent magnet drive technology and with advanced performance, comfortable, safe and reliable operations and low costs, the products are ideal tools for loading, unloading and handling palletized goods in warehouses, supermarkets, workshops and homes.

## Appearance

- / The new generation of A series double-column pallet stackers mini range II adopts a professional industrial exterior design. The vehicle has a smooth vivid profile, a compact shape and a fully ergonomic design, and follows the latest exterior design trend.
- / With a large number of steel plate stamping and injection molding processes to enable a robust and durable high-grade product that meets environmental protection requirements.

## Comfort

- / With the compact and stylish tiller, all operations can be easily completed with one hand.
- / The optimized design of the body structure provides an excellent operating view and to get in/out the pallet more easily.
- / Thanks to the compact, lightweight and flexible, it can be operated very easily and can pass through narrow aisles.
- / The truck can be operated in narrow space with the upright walking.
- / Gel battery: a maintenance-free battery.
- / The built-in charger is very convenient.

## Safety

- / With the functions of release braking, reverse braking and emergency braking to ensure safe driving.
- / With protection for preventing sliding down a ramp to ensure safe operation.
- / The emergency reverse button on the top of the tiller can effectively prevent the driver from being injured in an emergency occurring.
- / Soft landing system can automatically slow down the lowering speed and effectively protect the goods.

## High performance

- / With high power and a rated load capacity to meet the handling needs of most customers.
- / With a permanent magnet brush/synchronous motor with excellent performance and low heat generation.
- / The truck with regenerative braking provides protection for preventing sliding down a ramp.
- / The A2MJ model uses a permanent magnet brush controller with mature technology, and a motor with good universality and a low cost.
- / The A2MA model uses a permanent magnet synchronous controller with advanced technology, and a maintenance-free brushless motor with excellent performance.
- / The mast is made of special steel, and the outer mast is a welded structure, which reduces the weight of the vehicle and increases the rigidity.

The multi-function tiller is integrated with a code lock, display instruments and all operating buttons

## Reliability

- / The bearing wheel adopts a clamping plate structure, which can adapt to uneven roads and improve the service life of the bearing wheel.
- / With a high-strength steel frame structure, the truck has a large residual load capacity and a long service life.
- / The truck with four-point design provides good road holding ensure high stability and a good view.
- / The whole system uses waterproof connectors, and all wires and cables have reliable protection, which greatly improves the reliability of the electrical system.
- / With a superior low noise and low vibration hydraulic power unit to enable stable and reliable lifting and lowering.
- / The hydraulic unit and the frame are flexibly connected so that the vibration transmitted from the road surface to the hydraulic unit can be absorbed and the reliability of the hydraulic unit is improved greatly.
- / The stamped fork with higher strength and impact resistance, and guided fork prongs, further improve operation efficiency.

## Maintenance

- / The battery indicator can duly prompt the user to charge.
- / With a rear hood that can be completely opened to expose all components and facilitate the maintenance of the truck.

## Standard Specification

- / Permanent magnet brush (A2M) / permanent magnet synchronous (A2MA) motor
- / Permanent magnet brush (A2M) / permanent magnet synchronous (A2MA) controller
- / Hydraulic power unit
- / Emergency power off switch
- / PU wheel
- / Fork length: 1150mm
- / Fork interval: 560mm
- / Multi-function tiller with a code lock and display instruments
- / Horn
- / Built-in charger

## Options

- / Lift height: 2.0-3.6m
- / A full range of optional fork length
- / Distance between fork-arms: 680mm
- / Reflective mirror
- / Key switch
- / Universal key switch
- / Working timing function
- / Charge interlocking
- / Gel battery: 24V/100/125Ah for 1.2t
- / Gel battery: 24V/125Ah for 1.5t
